- Polychlorinated biphenyl (PCB), a banned chemical compound previously used in coolants and plasticizers

KEEP HOUSEHOLD HAZARDOUS WASTE OUT OF THE TRASH

Sacramento County and the cities of Rancho Cordova, Sacramento, and Elk Grove aim to keep HHW out of landfills.

Procedures for packaging and transporting items to a HHW facility:

- ✓ Keep products in their original containers. Do not mix products and make sure lids are tightly sealed. Label materials that are not in their original containers.
- ✓ Place leaking containers in a larger, plastic container with a tight-fitting lid.
- ✓ Secure products upright in a cardboard box so they do not tip over in transport.
- ✓ Transport products in the back of a pickup truck or in a car trunk. Ensure adequate ventilation if transported inside a passenger vehicle.
- ✓ Keep flammables out of direct sunlight and away from sources of heat, spark, flame or ignition. Do not smoke near products.
- ✓ Remain in your vehicle upon arrival at the facility, prepare to show your driver's license, and allow staff to off-load your waste.
- ✓ Containers larger than 5 gallons will not be accepted.
